**Magazine names Sacramento International Airport
one of nation's best for tech travelers**

SACRAMENTO, CA. —PC World magazine lists Sacramento International Airport as fifth on the list of 20 Best U.S. Airports for Tech Travelers in its upcoming issue, which was posted online on Dec. 14.

The article refers to Terminal B as “nirvana for mobile device users” for having more wireless charging surfaces than any other airport surveyed and a gate area with 140 triangular tables, each with two USB ports and a standard two-plug outlet at the corners. Sacramento International Airport has offered free Wi-Fi at both terminals since 2006.

Writers audited 40 of the country's busiest airports to come up with the rankings.

The issue will appear on newsstands Jan. 10, 2012 but can be seen here:
